<https://www.linkedin.com/in/babith-sarish-s/> <https://leetcode.com/u/babith/>

A Passionate Computer Science Engineering student with strong analytical, mathematical, and technical skills. Eager to apply knowledge to real-world projects and contribute to technological advancements.

PROJECTS

Vision Aid: Deep Learning Powered Object Detection and Spatial Awareness for Blind Navigation Jan 2024 - Apr 2024

- Developed an object detection system using YOLOv5 to aid visually impaired navigation, integrating semantic segmentation, BiFPN and CBAM for accuracy.
- Trained on a combined COCO and custom dataset.
- Optimized the model for accuracy and efficiency, ensuring reliable object detection in diverse environments.

CardioNetFusion: An Integrated System for Cardiovascular Disease Detection Using Deep Learning and Explainable AI - Present Jan 2024 - Present

- Managed project timelines, reducing delivery times by 30%.
- Spearheaded the adoption of cutting-edge engineering software, improving project accuracy by 15%.
- Collaborated with cross-functional teams, enhancing project success rates by 10%.

Integrated Maternal and Child Care System : Nurturing Wellness and Education Jul 2023 - Nov 2023

- Developed a web-based healthcare and education platform for mothers and children up to age 10, integrating prenatal care, nutrition, immunizations, and primary education.
- Features include financial aid, psychological support, and caregiver services to promote holistic well-being and community empowerment.

Integrating IOT in Home Automation for a Smart Living Jul 2022 - Nov 2022

- The project utilizes NodeMCU, an open-source IoT platform, to develop a smart home automation system.
- It enables remote control of home appliances and devices via a mobile app or web interface connected to a Wi-Fi network.

EDUCATION

B.E Computer Science and Engineering

MIT Campus, Anna University

CGPA : 8.5  Oct 2021-Present

Higher Secondary Certificate

Beula Matric Hr Sec School

Percentage : 98  Jun 2020 - Mar 2021

TECHNICAL SKILLS

- Programming :** C, C++, Java, Python, SQL, HTML/CSS
- Tools and Technologies :** Git, GitHub, VSCode, Windows, Linux, Canva, Latex
- Frameworks and Libraries :** ReactJS, Node.js, Express.js, Numpy, TensorFlow, Pandas
- Databases :** MySQL, MongoDB, Oracle
- Soft skills:** Team management, Creativity, Problem solving

ACCOMPLISHMENTS

- Full stack web developer intern at Bharat Intern - 2024
- Finalist in National level hackathon Hack2TechSustain - 2024
- Solved 300+ leetcode problems
- Runner up in web development contest SpiderBoy - 2023
- Junior level typewriter with distinction and first class - 2018
